

## Enter....Panopto: The BHS Virtual Education Platform

**Vikas Khanduja MA (Cantab), MSc, FRCS (Tr & Orth)**

**Consultant Orthopaedic Surgeon, Addenbrooke's - Cambridge**

**Vice President, BHS**

October 2020 saw the launch of one of our most ambitious projects yet, the BHS Virtual Educational platform via Panopto. Unprecedented disruption from COVID-19 has certainly accelerated digital transformations across every sector and has introduced millions globally to video communications technologies which have become essential communication tools. The BHS after much deliberation at the Executive meetings have also invested in both these technologies this year: Zoom and Panopto. Zoom allows an extremely user friendly and simple video conferencing and webinar solution and Panopto on the other hand acts as a repository and allows for hosting and sharing recorded content.

Enterprise video made easy.

Video Management

A secure portal for hosting and sharing all your video content

Recording and Editing

Easy-to-use software for recording and editing professional videos

Live Streaming

Live streaming software for broadcasting secure video streams at scale

Video Search

A unique search engine for finding any word mentioned in any video

Integration and APIs

Building blocks that bring video to your LMS, CMS, and portals

The BHS has already engaged in a number of virtual events for the BOA Annual Meeting 2020 and a series of Networks webinars, all of which were hosted via Zoom and now form a part of the BHS Panopto digital library. The symbiosis of this digital programme, together with our face to face annual congress programme, will strive to facilitate knowledge transfer and exchange. We are currently working on facilitating a single sign on access via our new website for all our members. Members can log onto the site via <https://britishhipociety.cloud.panopto.eu/>.
