

BRITISH HIP SOCIETY

Annual Scientific Meeting
Norwich

Final Programme

27th - 29th February 2008

Wednesday 27th February 2007 2.30 pm – 6.00 pm.

The Surgical Anatomy of Acetabular Dysplasia.

Chairman **Johan Witt**

Local co-ordinator Phil Hopgood

The Anatomy Rooms, University of East Anglia, Norwich.

Aim:

This course is aimed at surgeons with an interest in acetabular osteotomies. The emphasis will be on practical aspects such as anatomy, approaches and practising the cuts on sawbones models. There will be plenty of opportunity to discuss cases and this provides a good forum for those undertaking these procedures to highlight any issues they have.

Programme

Introduction and overview of acetabular osteotomies	Johan Witt
Surgical approach – the triple	A Hashemi Nejad
Peri-acetabular osteotomy – Ilio-inguinal approach	H Apthorp
Peri-acetabular osteotomy – Modified Smith-Petersen approach	Johan Witt
