The BHS Instructional course was set up with the aim of providing a comprehensive, FRCS (Orth) syllabus and evidence-based update on topics related to hip surgery.

This facilitates acquiring and updating knowledge at a rapid rate and in a short span of time. The first course was run on the last day of the Newport Annual Meeting and was a roaring success both in terms of numbers attending and the feedback. Building on the success and the feedback of the first course, we have designed the second course which will take place on the 11th June as a virtual event.

The theme for this year's course is 'Trauma and Revision' and it has been awarded six CPD points by the Royal College of Surgeons. Focusing on the mantra of 'Inclusivity and Diversity', dedicated and enthusiastic surgeons and academics from across the country have been brought together to lecture on their area of expertise for this course.

So, if you wish to learn, share, debate and discuss ideas and surgical techniques in an exciting environment, the BHS Instructional Course is for you!

Live stream access? For *maximum engagement and interaction*, view our live stream on Friday 11th June by logging in to our bespoke website from the comfort of your home or workplace.

Technical tips? Please check your internet speed/connection in advance - a good test is to see if Sky News Live on YouTube or BBC News Live is working without any issues. We recommend you use your tablet, laptop, or desktop (rather than your phone) and Google Chrome, Safari or Microsoft Edge as your browser. *Internet Explorer was replaced by Edge in 2015 and may not be compatible with our site features.*

What if I am presenting a talk or chairing a session? You will be provided clear separate joining instructions a few days prior. When you have finished presenting or chairing your session, simply log back into the live stream via our bespoke website, to view as a delegate.

Visit industry exhibitors? Join interactive live industry sessions and 'happy hour' informal face-to-face sessions as shown in the programme; visit virtual exhibition rooms by clicking the logos and buttons on the homepage. Learn about latest innovations and view pre-recorded presentations.

Digital posters?

We would encourage you to browse through our selected 110+ digital posters - simply click the posters button on our homepage once logged in and navigate through the different categories accordingly.

CPD attendance certificate? An online CPD evaluation form will be sent by email to you towards the end of October. Subject to this being completed, a CPD certificate (accredited by the Royal College of Surgeons of England) with the appropriate number of points, will be issued to you electronically.

1 to 1 messaging? Click the '**Attendees**' button to view all registered delegates and you may choose to send a message using the contact button provided.

On demand access? On demand viewing will be available from 23rd June until 31st October.
